Education

Deogiri Institute of Engineering, Chh. Sambhajinagar (2022 – 2025)
BTech in Computer Science Engineering (CGPA of 6.68)

Government Polytechnic, Dhule (2019 – 2022)
Diploma in Computer Science Engineering (Percentage of 89)

Skills

Web Development: React Js, Next Js, PHP, MySQL

Android App Development: React Native, Android Studio

Web Application Security: Burp Suite, Bug Bounty Hunting

Problem-Solving: Linux, JavaScript, C, C++, Python, Java

Experience

- **Freelance Web Developer**, *Upwork* (Sep 2021 – Present)
  - Developed several web applications for clients, improving user engagement and delivering responsive, scalable solutions.
  - Worked on web development projects using HTML, CSS, JavaScript, React, and PHP.
  - Handled both frontend and backend tasks, ensuring smooth performance and also fixed bug and issues in web apps.

- **Bug Bounty Hunter**, *Bugcrowd* (Jan 2024 – Present)
  - Reported over 30 vulnerabilities, including critical, medium and low issues, enhancing the security of various applications.
  - Identified security flaws in web applications, covering issues like XSS, authentication bypass, etc.
  - Received bounties for finding and reporting vulnerabilities to improve the security of platforms.

Projects

- **Skin Disease Detection APP** | *React Native, Python* (Apr 2024 – Mat 2024)
  - Built an Android app using machine learning algorithms to detect skin diseases from images with 90 percent accuracy rate.
  - Integrated React Native for a user-friendly interface and Python for backend processing and image recognition.

- **AudioPhile Ecommerce Website with Blind Mode** | *HTML, CSS, JavaScript* (Mar 2022 – May 2022)
  - Developed an ecommerce website with a blind mode feature, enabling text-to-speech on hover and voice commands using the Web Speech API.
  - Ensured the site is fully responsive and accessible, enhancing user experience for all customers.

- **Ayesha Paper Products (Client Project)** | *React Js* (Oct 2021 – Oct 2021)
  - Developed a comprehensive static website for showcasing paper products, featuring multiple pages including Home, About, Product listings, Gallery, Certifications, and Contact.
  - Implemented responsive design and attractive UI, enhancing user experience as my first significant project using React.js.

Certificates

- **Practical Ethical Hacking - The Complete Course,** *TCM Security* (Jul 2022)
- **Ethical Hacking / Pen testing and Bug Bounty Hunting A: Z Course,** *Udemy* (Feb 2022)
- **Responsive Web Design Challenge,** *freeCodeCamp* (Jul 2021)
